Comments:

Do you feel this project is appropriate to include in the student's portfolio considering skill-level demonstrated?

Comments: Yes, this is a good project for the student to add to their portfolio.

Did you experience any technical difficulties as you navigated through the website or displayed the project?

Comments: None.

What are the main strengths of the project?

Comments: Consistent design elements and not super overwhelming. Has a good look to it generally.

What are the main things that could be improved with the project?

Comments: Adjust some padding on the school lunch debt page with text and then the horizontal rules, or use a different approach to show this information more uniquely than a traditional table look.

Images on the events page go off the main body depending on the size of the screen, but they don't look centered. I would fix this to make it more consistent with the text content.

Overall, nice work!
